Abstract (en)

[origin: WO2013045828A1] The invention relates to a method (100) for managing vehicles offered for rental in a site, termed the rental site, comprising a plurality of vehicles, said method comprising the following steps: - identification (102) of a user with the aid of at least one identification datum, and - selection (120) of a vehicle from among said plurality of vehicles as a function of at least one predetermined criterion, termed the attribution criterion, and of data (D) relating to each of the vehicles of said plurality. The invention also relates to a method of reserving a vehicle implementing the method of management according to the invention. The invention also relates to a management and reservation system implementing the method according to the invention.
