Abstract (en)

[origin: WO2011057725A1] The invention relates to a method for controlling a printing process, by means of which, on the basis of data (13, 33) from a prepress stage, the printing material is printed by means of a printing unit (12, 32), wherein the printed result on the printing material is compared with a desired value and a correction value is derived therefrom, and wherein the data (13, 33) from the prepress stage are corrected with the correction value.
