Abstract (en)
[origin: WO2012167324A2] Parking solutions and storage solutions are provided. In particular there is provided a system for storing at least one vehicle, the system comprising a storage area for storing at least one vehicle and means for moving the at least one vehicle within the storage area, wherein the storage area is marginally larger than the size of the vehicle. The means for moving the at least one vehicle moved into the storage area includes a platform adapted to receive the vehicle. Provided are also systems for parking vehicle, in particular, peripheral parking systems and undercroft parking systems as well as a storage system for items.
