Abstract (en)

[origin: EP2765255A1] A self-adhesive natural stone panel and method for the production thereof, which comprises a generally rectangular planar body formed from at least one sheet (2) of natural stone 0.1 to 5 millimeter thick which incorporates on the non-visible rear face thereof a self-adhesive foam layer (3) 2 to 10 mm thick impregnated with an adhesive on the faces thereof, one face joining it to the sheet (2) and the other face, protected with a waxed paper film (4), serving for fastening same to the wall face, in which said self-adhesive foam layer (3) is incorporated into the rear face of the sheet (2) of natural stone by means of applying pressure provided uniformly over the entire surface with the aid of a press for a period of 5 to 10 minutes.
