Abstract (en)
[origin: EP2765356A1] The portable lighting device has a lighting device (1) that is provided for supporting the column assembly (4). The column assembly of the lighting device is provided with a stand device (6). The ballast (12) is adapted for providing an electric current for the light emitting device. The ballast is arranged in the longitudinal direction below the column assembly. The ballast is secured to the column assembly. A portion of the bulb is provided to surround the translucent lampshade (2).
