Abstract (en)

[origin: WO2013053562A1] The invention relates to a communication system (1) for a motor vehicle, wherein the communication system (1) has a telemetry terminal (2), in particular having a plurality of interfaces (7), and a motor vehicle control unit terminal (3), wherein the communication system (1) also has a bus (8) by means of which the terminals (2, 3) communicate with each other, wherein the communication system (1) has a firewall (10) that monitors the communication between the terminals (2, 3).
