Abstract (en)

[origin: WO2013056889A1] The present invention relates to a stripper (11) for an operating roll of a rolling stand, in particular a hot-rolling stand, wherein the stripper (11) has a stripper tip (5) for making contact with an operating roll (1) of the rolling stand and a first screening element (8) for screening the material (10) being rolled against cooling water of the rolling stand is provided, wherein a second screening element (6) for screening the first screening element (8) against a thermal loading by the material (10) being rolled is provided.
