Abstract (en)
An improved roofing arrangement for a ridged roof comprising a roof apex reinforcing arrangement, the roof apex reinforcing arrangement comprising sloping planar reinforcing assembly tapering to or proximal to the apex of the ridged roof. The sloping planar reinforcing assembly being substantially parallel to a main plane of a sloping portion of the ridged roof. The planar reinforcing assembly extending along all or a substantial part of the length of the apex of the roof and extending along an upper region of at least one sloping portion of the ridged roof.
