Abstract (en)
[origin: EP2770217A2] The assembly has through bolts (9) each connected to valve block plates (1), and a channel (3) for hydraulic fluid. The bolt is extended to the channel through a through-hole (10), and includes an external thread and an internal thread corresponding to the external thread. The through-hole includes an equilateral polygonal cross-section in length region (31). The bolt includes an extending branch hole (28) transverse to the through-hole.
