Abstract (en)
[origin: WO2014056878A1] The piece of furniture (10) is provided with at least one drawer (12) or the like which can be pulled out from the body of the piece of furniture by means of a first and a second pull-out guides (13), each guide having a closing device (16) for the drawer (12). The piece of furniture (10) also comprises stopping means (24', 28) conformed and arranged to stop the drawer (12) in a first closing position in which the drawer (12) is spaced apart from the body of the piece of furniture, the stopping means (24', 28) being elastically yielding and/or overcomable by pressure on the drawer (12) in the closing direction up to a second closing position in which the drawer (12) is more adjacent to the piece of furniture (10); locking means (24", 30) are also provided, conformed and arranged for releasably locking the drawer (12) in the second closing position, the locking means (24", 30) being releasable by means of traction on the drawer (12) in the opening direction thereof.
