Abstract (en)
[origin: WO2013064471A1] The invention relates to packaging (1) for holding a product, comprising a first lateral part (10) and a second lateral part (20), wherein the first and the second lateral parts (10, 20) form an interior (4) of the packaging (1) and an opening (3) to the interior (4) for holding the product, further comprising a tab (13) which is arranged on the first lateral part (10) and includes a recess (14) for receiving a finger, at least one expanding element (26) for widening the opening (3), and an adhesive element (15) for closing the opening (3), wherein the adhesive element (15) is arranged on an outer face of the tab (13) and/or of the first lateral part (10).
