Abstract (en)
[origin: EP2774516A2] The seal corner (1) has rubber and/or plastic film that is arranged between non-woven layers. The wall section (8) is arranged at right angle to step portion (10), during mounting state. The step portion is connected to a connecting portion (9) that is extended in an opposite direction to the wall section. The step portion is formed at the intended transition of wall portion, such that permanently visible material action of rubber and/or plastic film and/or non-woven layer is achieved. An independent claim is included for seal set for sealing sanitary fitting such as bathtub or floor-level shower tray.
