Abstract (en)

[origin: EP2775045A1] The fitting (1) has a housing comprising a first inlet for cold water, a second inlet for warm water and a mixing device (4) for optional mixture of warm and cold water. A combined sewage exit (14) is provided at an output side (10) by a conduit unit (11) for combined sewages. An intermediate exit (12) is arranged between the mixing device and the combined sewage exit. An intermediate entry (13) is arranged at housing (2). The combined sewage between the intermediate exit and the intermediate entry is adapted for conducting creation of energy by a power generation device (3).
