Abstract (en)
[origin: EP2775253A2] The shaft (2) has a supporting region provided at a top face of a support part for supporting a closure housing (3) and/or a barrel (1). A profile is provided at an underside of the support part for positive support of the support part. The support part is inseparably connected with a stock by an adhesive bond. The closure housing and/or the barrel are secured over an attachment screw (14) at the support part. The attachment screw incorporates a threaded bore (23) for a screw (24) for fastening a magazine frame (25). Guide bars are formed for pressing into the stack.
