Abstract (en)

[origin: WO2013072358A1] The invention relates to a storage battery, comprising at least: first and second stages (Et1, Et2) electrically connected in series, each stage including at least first to third cells (A11, A21, A31) electrically connected in parallel; and at least first and second current limiters (Li11, Li21) via which the first to third cells (A11, A21, A31) of said first stage (Et1) are connected in parallel and via which the first to third cells (A12, A22, A32) of said second stage (Et2) are connected in parallel.
