Abstract (en)
[origin: EP2781320A1] The clipper (1) has a case e.g. upper case (10) and lower case (10'), containing a cutting block (20) comprising a fixed blade (21) and a mobile blade (22) actuated in oscillation. The case includes an electric motor to actuate movement of the mobile blade and a suction system with a suction duct. The duct has a suction mouth, at its front end (E1), in fluid communication with the suction duct and being adjacent to the cutting block. The mouth includes a partially flexible wall deformed when the wall is subjected to a support force.
