Abstract (en)

[origin: CA2862638A1] The invention relates to a water outlet for a sanitary system on a rail vehicle, comprising a water outlet pipe (1) and a heating device (6) for protecting the water outlet pipe (1) from frost, wherein the heating device (6) is guided from outside into an end piece (3) of the water outlet pipe (1) and therefore is at least partially arranged in the interior space (3) of this end piece (3).
