Abstract (en)

The present invention relates to a vibrational massage apparatus for providing relaxation of oral muscles of an individual comprising a mouthpiece (1) for stimulation treatment of oral muscles of an individual, having a body element (3), means (4) for generating a plurality of vibration signals that are being transferred to the body element (3); an interface (1.5) for a power supply and control unit (2), a contact element (1.6) connected to the body element (3), whereas the contact element (1.6) has a lip-adapted and the contact element (1.6) having a plurality of contact surfaces (3.1, 3.2, 3.3, 3.4, 3.5, 3.6, 3.7, 3.8) on which said vibration signals are applied and enabling a direct contact between the contact element (1.6) and oral parts of said individual for providing relaxation of oral muscles of said individual."
