Abstract (en)  
[origin: WO2013083753A2] The present invention relates to SPe LV, a swine parechovirus-like related to the Ljungan virus (LV) and human parechovirus (HPeV). The present invention also relates to new proteins encoded by SPeLV, which displays some homology with LV and HPeV capsid proteins. Also provided are methods for raising immune responses against SPeLV in a subject.
