Abstract (en)

[origin: WO2013087258A1] The invention relates to a method for venting an accumulator charge pump (10), comprising the steps of: opening at least one inlet valve (28) via which a liquid accumulator (14), which can be filled by means of said accumulator charge pump (10), is connected to a filling volume (22) able to be filled by means of said liquid accumulator (14); and opening at least one outlet valve (42) via which said filling volume (22) is connected to a suction side of the accumulator charge pump (10). The invention also relates to a venting device for an accumulator charge pump (10) of a liquid accumulator (14).
