Abstract (en)

[origin: WO2013087466A1] The invention relates to a bag (1) which is made of plastic film and which, when open, can be filled with at least one product. According to the invention, the bag (1) has at least two fill chambers (11a, 11b), the fill chambers (11a, 11b) being separated from each other with the aid of at least one openable zipper-type fastener (6) in the interior of the bag (1) such that a single mixing chamber is formed from the fill chambers (11a, 11b) after the zipper-type fastener (6) has been opened. The invention further relates to a row of bags.
