Abstract (en)
[origin: EP2792956A1] An outdoor unit 100 for an air-conditioning apparatus has a handle provided to a substantially rectangular top panel 25 that covers the upper opening of an outdoor unit body shell 20, the outdoor unit body shell 20 including a machine room 9 and an air-sending device room 5 in its interior. The outdoor unit 100 includes a long-side handle 30 provided in the long-side portion of the top panel 25, and a short-side handle 34 provided in the short-side portion of the top panel 25 or in a side panel. The long-side handle 30 is positioned so that the long-side handle 30 projects outward beyond the long-side portion of the top panel 25, and in top view, the long-side handle 30 does not project outward beyond the distal end position of a leg portion 21 provided on the bottom portion of the outdoor unit body shell 20.
