Abstract (en)

[origin: WO2013091781A1] The present invention relates to a possibly multiple-layer blown plastic film made from biodegradable polymers, comprising at least one layer made from at least one biodegradable polymer and from 0.1 to at most 5% by weight, in relation to the total weight of the blown plastic film, of at least one olefin oligomer or polyolefin from C2-C8 repeating structural units as superplasticizer, to a method for producing the blown plastic film, and to the use of a blown plastic film of this type as packaging material.
