Abstract (en)

[origin: WO2013098268A2] The present invention is related to the provision of a tablet that may easily be orally administered and has valsartan as active ingredient. Specifically, the present invention provides a tablet consisting of pharmaceutical composition comprising a valsartan or a pharmaceutically acceptable salt thereof, a disintegrant, a glidant and a lubricant, wherein the tablet is orally administrated through disintegration in the mouth by saliva or water in a similar amount to the saliva. The present invention is also related to the provision of a dry-coated agent that may prevent bitter taste, sufficiently improve QOL, and has valsartan as active ingredient. Specifically, the present invention provides a dry-coated agent comprising an inner core consisting of pharmaceutical composition containing valsartan or its pharmaceutically acceptable salt thereof, and an outer layer coating the inner core and consisting of coating composition containing pH adjuster which makes inside of the mouth mildly acidic.
