Abstract (en)
Shower tray comprising at least one trap body (1) coupled to at least one drain body (11), which trap body (1) is embedded in mortar (6). The shower tray comprises a conduit (22) situated on the top section of the mortar (6), surrounding the draining body (11) in such a way as to make the entire shower tray (21) even. The invention further consists of a mold and a method for installing the aforementioned shower tray.
