Abstract (en)
[origin: EP2612825A1] A hair colorant container (10) in the form of a flexible sachet having a laminate structure for storing a hair colorant component comprises: - a reservoir (2) with an internal volume (13) for storing the hair colorant component, - a pouring spout (14) being in fluid communication with the internal volume and having an dispensing end (16) for dispensing the hair colorant component, - the pouring spout being integrally formed with the reservoir and projecting from an upper side of the reservoir and having an elongated shape with a width being smaller than the width of the reservoir, and - a removable tear tab (18) at the dispensing end for sealing the container before the container has been opened.
