Abstract (en)
[origin: WO2013093871A1] A component for use in the civil and residential construction sector comprising a base (10) generally having a U-shaped section comprising a seat (11) containing filling material and in particular cast concrete. This base is made from a thermal insulating, sound-proofing, high-strength material such as polystyrene or polyurethane and the seat (11) of the base has a series of undercuts (14, 15) such as to form, once the cast concrete has hardened, a single piece, monoblock component with a loadbearing structure having a thermal insulation and soundproofing coating.
