Abstract (en)

The present invention concerns a flange assembly (8) for a tower segment (2). The flange assembly comprises a number of flange portions (8a, 8b, 8a', 8b') each with a first interface (14) to the tower segment (2) and a second interface (16a, 16b, 16a', 16b') to connect to another flange portion (8a, 8b, 8a', 8b'). The invention also concerns a production method (Z) for a flange (100).
