Abstract (en)  
[origin: WO2013110667A2] The invention relates to a method for cutting a bar of product into slices of product by means of a cutting device. The invention also relates to a packaging machine for packaging slices of product, having a plurality of work stations and a cutting device for cutting a bar of product into slices of product. The invention further relates to a system consisting of a cutting device and a packing machine.
