Abstract (en)  
[origin: WO2013110925A1] A pack (1) for smoking articles is disclosed. The pack includes a body having two minor side walls, a minor top wall and a minor bottom wall extending between two opposing major walls so as to define a space for holding smoking articles. The pack (1) further includes an opening in at least one minor wall so as to provide access to the space, a lid (4) that is pivotally attached to the minor wall formed with the opening so as to open and close said opening. The lid (4) is attached to one of said minor walls along a hinge line (17) that extends obliquely relative to a plane of at least one of the major walls.
