Abstract (en)
  [origin: EP2811454A1] There is disclosed a method of generating a target image based on a source image, the target image comprising target pixels and the source image comprising source pixels, the method comprising: generating a pixel value for each target pixel based upon a pixel value of one or more source pixels associated with a corresponding source location in the source image, wherein: the source locations are linked by a pattern of offset vectors, each offset vector indicating the location of a respective source location relative to that of an adjacent source location in the pattern; and the method comprises calculating at least one of the source locations based on said pattern of offset vectors.
