Abstract (en)

[origin: WO2013117310A1] A compacting and transfer device of groups of filter bags containing infusion substances comprising a transfer unit (19) of a group (2) of filter bags (5) from a collection station (18) to a packaging station (20); the transfer unit (19) comprising a transfer and rotation element (22) of the group (2) of filter bags (5) and a compacting element (23) of the group (2) of filter bags (5); the transfer and rotation element (22) comprises a lifting device (45) of the group (2) of filter bags (5) developing along a vertical axis (V) capable of transferring the group (2) of filter bags (5) from a first horizontal plane (P1) to a second horizontal plane (P2) at a greater height with respect to the first plane (P1).
