Abstract (en)

[origin: US2014373246A1] The invention relates to an article of clothing that includes an article of clothing for at least partially covering a portion of the user's body. The article of clothing includes a band positioned in the extension of a portion of the clothing element and adapted to surround the waist or a limb of the user, the band being demarcated by at least one edge with adjustable perimeter, the band forming a wall of a housing surrounding the waist or a limb of the user, the housing being adapted to contain the folded clothing element and to keep it around the waist or a limb of the user.
