Abstract (en)
[origin: WO2013124592A1] The invention relates to a protective case for at least two credit cards (2) or the like, having the shape of a flat envelope, comprising two parallel walls between which one or a plurality of spaces are formed, intended for accommodating the cards (2) to be protected. The case comprises at least two parts (3, 4), each comprising one of the two parallel walls, and one of the at least two parts (3, 4) is slidably mounted on the other, and each of the at least two parts (3, 4) is shaped to accommodate and hold a card (2), and to this end comprises a housing (32) into which a card (2) can slide, said housing (32) comprising a reversible means for holding the card (2), in order to secure same, and having an opening by which the card (2) can be extracted by sliding, after sliding the part (3, 4) containing the card (2).
