Abstract (en)
[origin: WO2013124574A2] The invention relates to biosourced epoxide resins including the product of the reaction of one or more biosourced epoxide lipid derivatives with at least one cross-linking agent in the presence of at least one co-reagent selected from among the glycidyl ether derivatives of biosourced polyols, or the product of the reaction of one or more glycidyl ether derivatives of biosourced polyols with at least one cross-linking agent.
