Abstract (en)
[origin: EP2818396A1] A docking structure for docking a vessel (35) to at least one bumper bar (31) of a marine structure (43) comprises: - a buffer (1) with at least one gripping system (15) suitable for gripping a bumper bar (31) of a marine structure (43); - a mounting section (39) for mounting the docking system to a vessel; and - a kinematic structure (37) which connects the mounting section (39) to the buffer (1) and offers six degrees of freedom for a relative movement between the mounting section (39) and the buffer (1).
