Abstract (en)
[origin: WO2013127483A2] The invention relates to a radiator grille (1) for a motor vehicle, having a circumferential frame (3), by the frame elements (5, 7, 9, 11) of which a clearance (13) is delimited and into which a grille panel (G) is inserted, wherein a plurality of decorative grilles (27A to 27D) which form the grille panel (G) are attached to the frame (3). Moreover, the invention relates to a decorative grille (27A to 27D) for a motor vehicle, which decorative grille (27A to 27D) can be attached to a circumferential frame (3) of a radiator grille of the motor vehicle and comprises a grille structure with respective grille elements (31, 33), wherein intersection points of the grille elements (31, 33) of the grille structure are provided with domes (35).
