Abstract (en)  
[origin: WO2013114287A2] The invention relates to a device for protecting shops, workshops, cellars, basements and similar premises, that can be exposed to the flooding risk in case of floods or particularly severe atmospheric events. The device, made in the form of a kit, comprises a waterproof enclosure or wall which acts as a barrier against water and that can be quickly installed in case of need, due to a structure to be applied to the walls of the premises to be protected.
