Abstract (en)
[origin: WO2013132177A1] The invention concerns an installation for drying a thin-walled biodegradable pot, said installation comprising a drying mould wherein one wall has a shape adapted to a corresponding shape of a wall of a moulded pot to be dried, and a means of heating the drying mould wall to a temperature above 160°C, and preferably between 180 and 240°C. The invention also concerns: - an installation for manufacturing pots comprising a drying installation according to the invention, - a method of drying pots, - a pot obtained from an installation or from a method according to the invention, and an assembly comprising a plant in a pot according to the invention. Applicable to the manufacture of pots for growing plants.
