Abstract (en)
[origin: WO2013138173A1] The present invention relates to an unloading system (70) for conveyor warewashers (1) for the automatic unloading of upended trays (100) in a tray stacking station (80) in which the stacked trays (100) are oriented horizontally, wherein the unloading system (70) has a sliding surface (71) inclined in the direction of the tray stacking station (80) and a guide (72), with which upended trays (100) can be transferred in succession to the sliding surface (71), preferably in the outlet region of the conveyor warewasher (1), by a combined tilting and linear movement.
