Abstract (en)  
[origin: WO2013143679A1] The invention relates to an industrial truck (1) with a vertically adjustable load pickup means (2), wherein a light-emitting means (8) is arranged on the load pickup means, and the light-emitting means is connected to a control unit (6), wherein the light-emitting means in the switched-on state has a reduced light intensity controlled by the control unit depending on a travel height (13) of the load pickup means.
