Abstract (en)
[origin: EP2832939A1] Portable folding awning, for use especially on the beach, in the countryside, on terraces or recreation areas, for leisure or relaxation, which is characterised in that it has two parallel, extendible frames. There are posts folded under the frames in the manner of telescopic tubes, a tensioning ball-and-socket joint on the arm of the frame and rubber tensioning elements at the ends of the frames, which are secured to the posts. There are also a securing stud and two rectangular slots at 90° and 45° to the perpendicular at the ends of the frames.
