Abstract (en)

[origin: WO2013143622A1] An infusion pack (10) for a respective product for infusion (15), such as coffee or the like, can be used in a suitable apparatus (A) for making the drink and has an external wrapping which defines a chamber (13) for containing (11) the product (15) and which can have means suitable to define a respective passageway for introducing inside the wrapping and for the going out of heated water from the same wrapping. The pack comprises a compact slab (15) of said product for infusion which is housed inside said wrapping (11), and said wrapping (11) defines a housing chamber which presents a volume coinciding or substantially coinciding with the one of said compact slab (15).
