Abstract (en)
[origin: US2015041350A1] A pencil holder for storing a pencil includes a hollow basic body which has an elongated interior that opens out in an insertion opening for partially receiving the pencil. In the region of the insertion opening the basic body merges into a least one retaining tongue which juts out from the basic body in the longitudinal direction and which is set up for the purpose of holding the pencil on the basic body as a result of clamping.
