Abstract (en)

[origin: EP2837733A1] The invention relates to a laundry treatment device (100) comprising: a casing (2) including a front wall (4) defining a continuous front surface (4a) and having a panel aperture (15); a control panel assembly (1) for controlling operation of the laundry treatment device (100), said control panel assembly including an outer dashboard (11) which is structured to be coupled to said front wall (4) at said panel aperture (15) and to be operated by a user. In addition, laundry treatment device (100) further includes a mechanical coupling device of a first type (20) and a mechanical coupling device of a second type (30), said first type being different from said second type, so configured to couple said outer dashboard (11) to said front wall (4) at said panel aperture (15). The invention is also relative to a method to couple a control-panel assembly (1) to a front wall (4) of a laundry treatment device (100).
