Abstract (en)

[origin: CN104372804A] Provided is an anchoring device for the foundations of a ski lift structure. The lift is especially an air lift or a dragging lift. The anchoring device comprises a base (25) arranged on a ground and a metal structure (27) mechanically connected with the upper part (2) of the structure and the base (25). The base (25) comprises at least a pile of premade concrete plates (29).
