Abstract (en)

[origin: WO2013159860A1] What is described is a fin for water sport, in particular for surfing, comprising a base element (1) with at least two wing elements (2), wherein in each case the wing element has at least one first and one second portion, and in each case the first portion of the wing element covers the base element and the wing elements are connected via the second portions, and also a rod integrated in the fin in order to support and simplify the turning manoeuvres.
