Abstract (en)
[origin: WO2013160884A1] The present invention relates to a method for potting a stator (10) of an electric machine, comprising the steps consisting in:- introducing an expandable, preferably elastically deformable, non-metallic shell (40) in a non-expanded state into the stator, - expanding the shell (40), - pouring a resin around the shell, inside the stator, - retracting and removing the shell (40) after the resin has set.
