Abstract (en)

[origin: EP2843152A1] The invention relates to a flashing system for a building, in particular for a roof (1) or a wall, comprising at least one metal sheet (13) for covering a part of the building. The system comprises a slotted element (16) that is part of or to be installed on or in the building, wherein the sheet (13) comprises a stiffened and/or thickened edge (14) for inserting and securing the sheet (13) in the slotted element (16).
