Abstract (en)

[origin: WO2013164521A1] The present invention concerns an article for body decoration consisting of a substrate (1) comprising a surface coated with a hypoallergenic repositionable adhesive and a decorated surface, the substrate (1) being constituted by a multilayer complex comprising at least two laminated layers (4 and 5) decorated with a plurality of decorative elements (2 and 3), at least a portion of which has a full minimum dimension greater than two millimetres, and the decorative elements covering at least 99% of the surface of the substrate.
